

Studies in Phonetics, Phonology and Morphology

Volume 22, Number 3, December 2016

Sunwoo Park	The diachronic declination of Korean vowel harmony from the perspective of Information Theory	453
Eunkyung Sung	Perception of onset clusters by English and Korean listeners: Universal markedness and L2 phonotactic knowledge	477
Jae-Hyun Son Chiyuki Ito	The accent of Korean native nouns: North Gyeongsang compared to South Gyeongsang	499
Young-ran An	Capturing variation and gradience in identity avoidance: A case of machine learning	533
Tae-Jin Yoon	Phonological optimization through entropy minimization	559
Soonhyun Hong	Vowel inherent spectral properties characterized in Korean and American English talkers' English vowel signals: A production-based pattern recognition modeling study	583

Phonology Morphology Phonetics
